New Trading Hours

With a view to provide a more efficient service, as of Monday 3rd June we will be trialling new trading hours.

Pick ups from the Moorooka Yard - : 7.00 am - 3.30 pm Monday to Friday

Sales Office - : 7.00 am - 4.00 pm Monday to Friday

In the past we have staggered our yard staff's hours to accommodate an early start and as such this has reduced our capacity to provide a speedy pick up service. The present cooler weather has also contributed to the decision to make this change. This new arrangement will allow all hands on deck from 7.00 am to 3.30 pm, effectively tripling our yard staffing though out the day.

Our sales office hours will remain 7.00 am – 4.00 pm (however the gates will be closed at 3.30 pm)

With this and other improvements to the yard our goal is to be able to pick your order and load your vehicle in a quick and as efficient way possible.

Wilson Timbers will deliver your quality timber and hardware right to your door in the quickest possible time! Our fleet of crane trucks service the Greater Brisbane area daily. If you live outside the Greater Brisbane Area, or if you are an interstate customer, Wilson Timbers will inform you of the delivery charge as soon as possible. If you have any inquiries regarding delivery, please contact us for more information.

INSIDEOUT®

OUTDOOR LIVING

Insideout is a specially designed and pre-engineered ceiling system that transforms the unsightliness of the underside of your deck into a desirable and usable outdoor living area all year round. Insideout panels channel water away from your home even during the harshest summer rain storm or winter snowfall.

DECKMASTER SPECIAL

For every deckmaster installation gun sold in the
month of June Deckmaster will give you 2 FREE deck
clamps.

That's a saving of \$109.89.

What is your role here
?

Branch Manager

Wilson Timbers Now Sell Adjustable Joist hanger

Advantages of the adjustable joist hanger:

- keeps your joists off the concrete & free of unwanted moisture ingress.
- Is ideal for use on areas where the concrete has built in "fall" - provides a level deck
- Quick and easy to use—purpose built for the application

What makes you the
best of the best?

Great customer ser-
vice, timber knowl-
edge & I'm ex-
tremely modest.

What do you like most
about this job?

Lunch time

What is your Favourite
product and why?

DeckMaster, its in-
novative & produces
a professional re-
sult.

You're not doing it right

Thank you to the customer
that supplied this photo. If
any one has any like this
please email them in and I
will put them on the news-
letters.

Did you know you can tell how old a
tree is by how many rings are on
the trunk? Tree trunks grow thicker
every year by adding a new ring of
growth. New growth takes place in
the cambium. By counting the rings,
people can tell the age of the tree.
You can also find out how rainy or
dry a season was by looking at the
tree rings. During a rainy season,
the rings will be thicker because the
tree is getting more water. During
seasons that are dry or during a
drought, trees do not get as much
water, so they do not grow as much
and the tree rings are smaller.
