

NEW TIMBER BLADE RANGE

PREDATOR PERFORMANCE

Austsaw spent six months trialling and testing all recognised brands of TCT saw blades currently available on the Australian market, as well as many samples from manufacturers all over the world.

Our custom designed testing procedure put every blade through a rigorous test. This was comprised of cutting hundreds of meters of abrasive turpentine hardwood and cutting through over 400 3.0mm diameter nails.

Following this, each tooth on each blade was inspected on a digital microscope and given a rating depending on tooth wear and damage. Through conducting this extensive testing we were able to define the quality and market positioning of available blades.

RESULTS

TESTING INFORMATION

Blade Used

- 235mm
- 40T

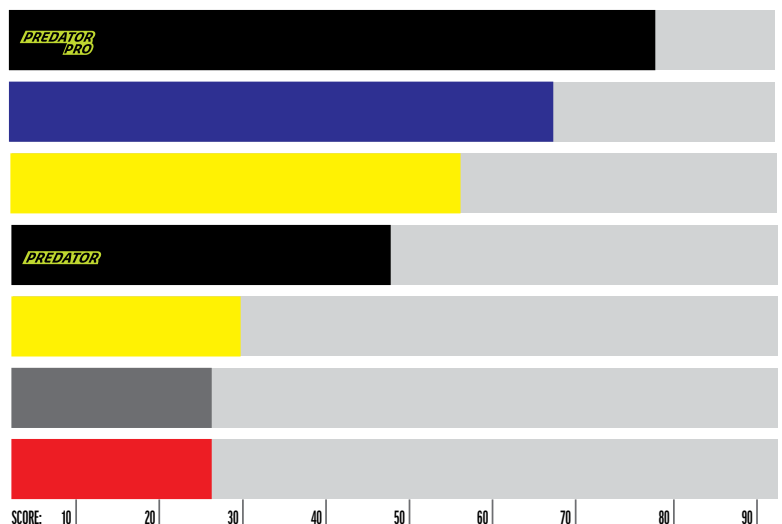

Material used

- Turpentine decking 85x19

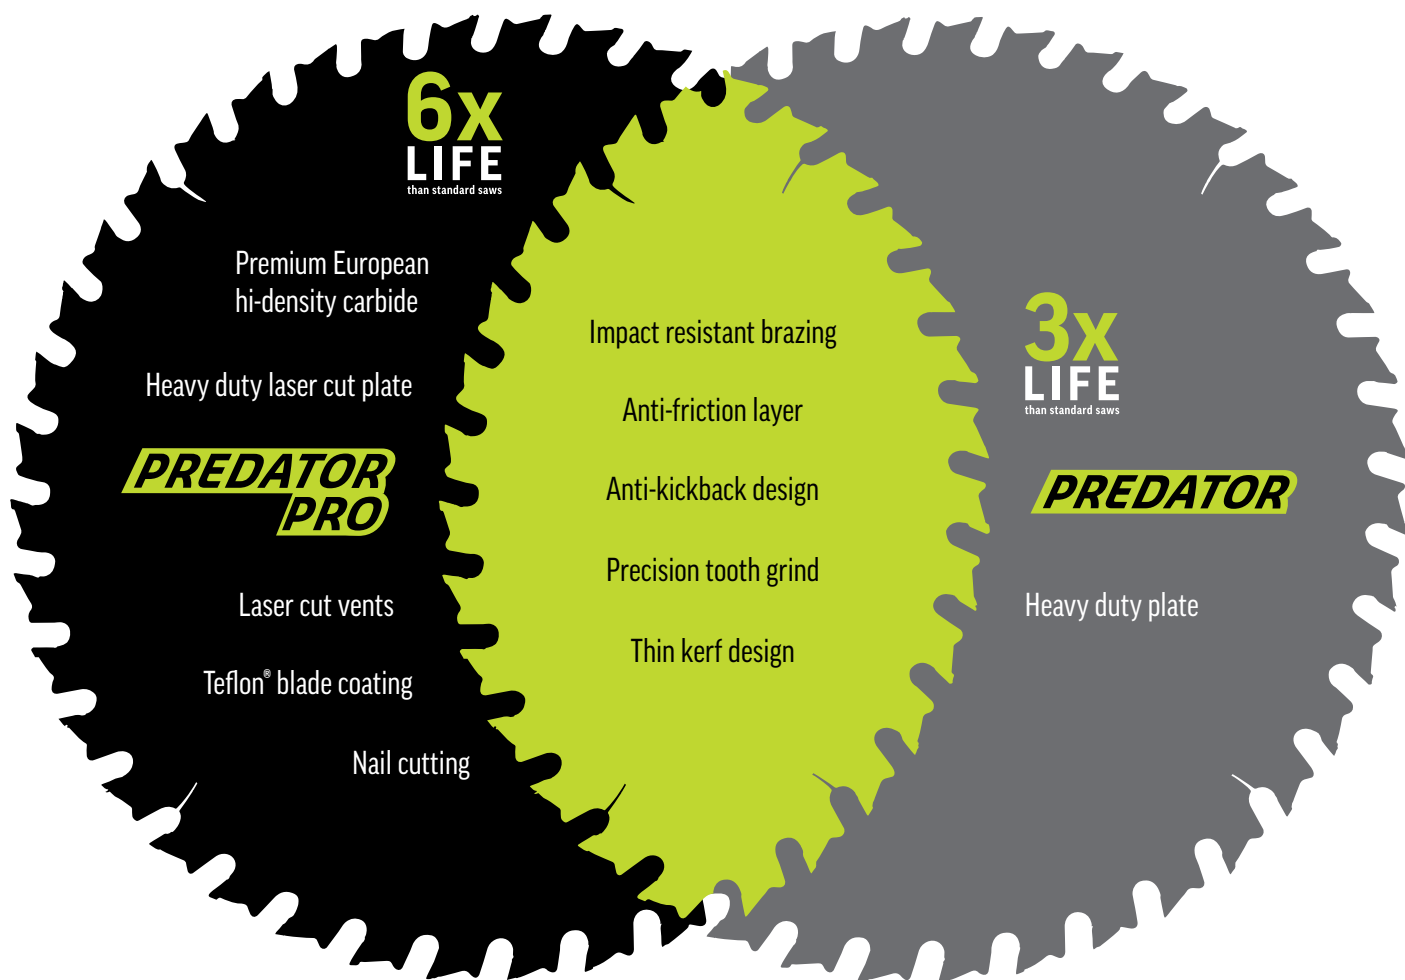

Turpentine Properties:

- Elevated hardness rating
- Highly abrasive
- Presence of silica causes fast wear on machine tooling
- Consistently knot free premium grade decking timber

SCORE OUT OF 100

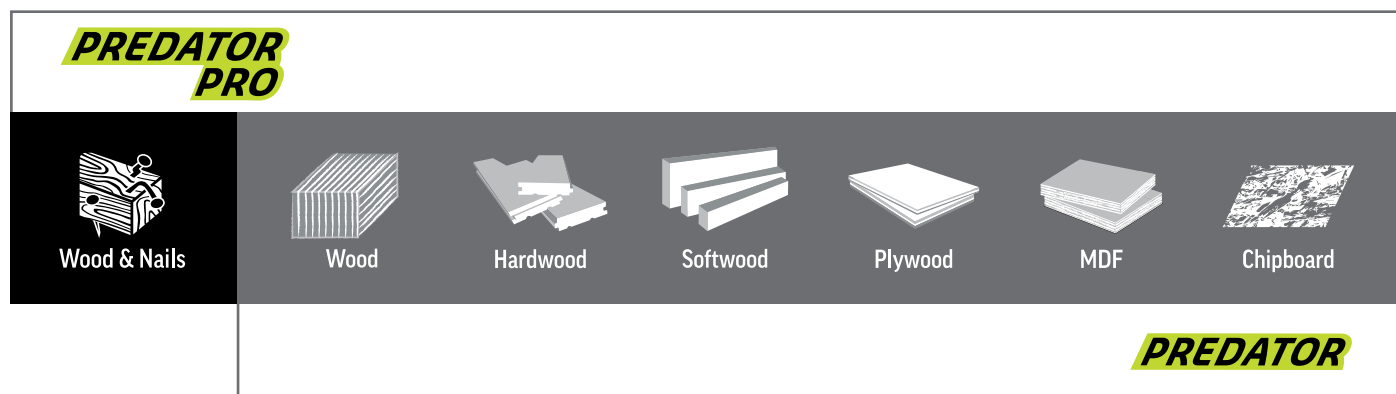

COMPARISON

MATERIALS

PREDATOR PRO blades have been engineered to handle wood with nails.

PREDATOR blades handle wood with ease.

PREDATOR PRO

TCT TOOTH **TIMBER** BLADES

PREDATOR PRO blades have been engineered for extreme performance, giving up to 6x the life of a standard saw blade.

FEATURES:

Premium European Hi-Density Carbide	Extreme durability & cutting life
Heavy Duty Laser Cut Plate	Finest quality steel – tough & resilient
Laser Cut Vents	Superior noise & vibration absorption
Impact Resistant Brazing	High performance tooth bonding
Thin Kerf Design	Increased battery life on cordless saws
Teflon® Blade Coating	Less gumming & pitch buildup Corrosion resistant for long blade life
Anti-Friction Layer	Prevents friction for smoother cutting
Precision Tooth Grind	Superior tracking & cut quality
Anti-Kickback Design	Reinforced shoulder for safety & durability
Nail Cutting	Handles wood with nails & knots

MERCHANDISERS

- Eye-catching & unique design
- Angled for increased visibility
- Easily attaches to existing merchandisers
- Customisable angles & spacing
- Removable
- Suitable for entire range of Austsaw blades

COUNTER DISPLAYS

PREDATOR PRO

- Perforated edges for quick assembly
- Easy access to blades
- Compact design takes up minimal counter space

RANGE:

*Predator Pro range only
