

# SOLITEX MENTO® – The *Healthy* Alternative to Roofing Blanket

If you're struggling to find roofing blanket and you're worried about condensation,  
try Australia's best Weather Resistive Barrier!

## Next Generation Technology

TEEE technology from pro clima **reduces the risk of condensation damage** in your roof space and stops those frustrating call-backs for "roof leaks".

## Lifetime Durability

With **180 days UV resistance**, it's seriously tough stuff!

SOLITEX MENTO®, the roofing range from pro clima, is German engineered for our harsh Australian conditions and is built to last the life of the building.

## Making the Change is Easy!

- 1) Replace your roofing blanket with SOLITEX MENTO® PLUS, 5000 or ULTRA.
- 2) Select higher R-Value ceiling insulation.
- 3) Install as per the building code (AS 4200.2) or for even better performance, try the [pro clima ASV system](https://www.proclima.com.au).
