The World's #1
Decking Brand

Since 1996, Trex has invented, defined and perfected the composite deck category with a lineup of low-maintenance, high-performance products that fundamentally change the way we live outdoors.

Island Mist

A cool medley of calming silver tones, Island Mist mimics the weathered look of driftwood, with its true-to-nature vibrancy and realistic grain pattern.

Why Choose Trex?

Designed with lasting beauty, incredible durability and easy maintenance, there's no compromising with high-performance composite decking. That's why high-performance composite is the only type of decking we make.

- Made of quality composite for durability; won't rot, warp or splinter
- Protective outer shell resists fading, stains and scratches; no sanding or painting required
- Elevated aesthetics paired with the highest level of performance
- Luxurious multi-tonal grain pattern inspired by exotic wood

Spiced Rum

A burnt umber with onyx black lowlights, Spiced Rum resembles tropical ipe (walnut).

Always Green

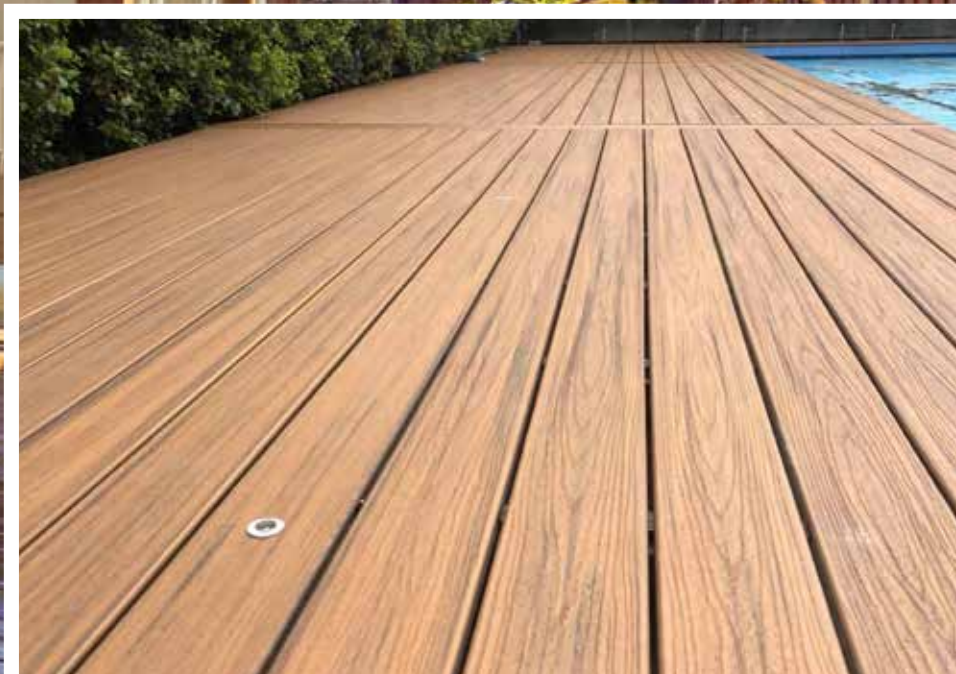

We make Trex® eco-friendly composite decks from an innovative blend of 95% reclaimed wood and plastic film—that's almost the whole thing. On top of that, our company uses some of the most earth-friendly manufacturing processes in the world, reclaiming factory waste and eliminating the use of harmful chemicals.

Trex offers consumers a truly environmentally responsible choice. Being green is in our DNA. We've been this way for more than 20 years, well before green was a buzzword. Because in the end, all of us want to look out on our decks and know that we've done our part.

Havana Gold

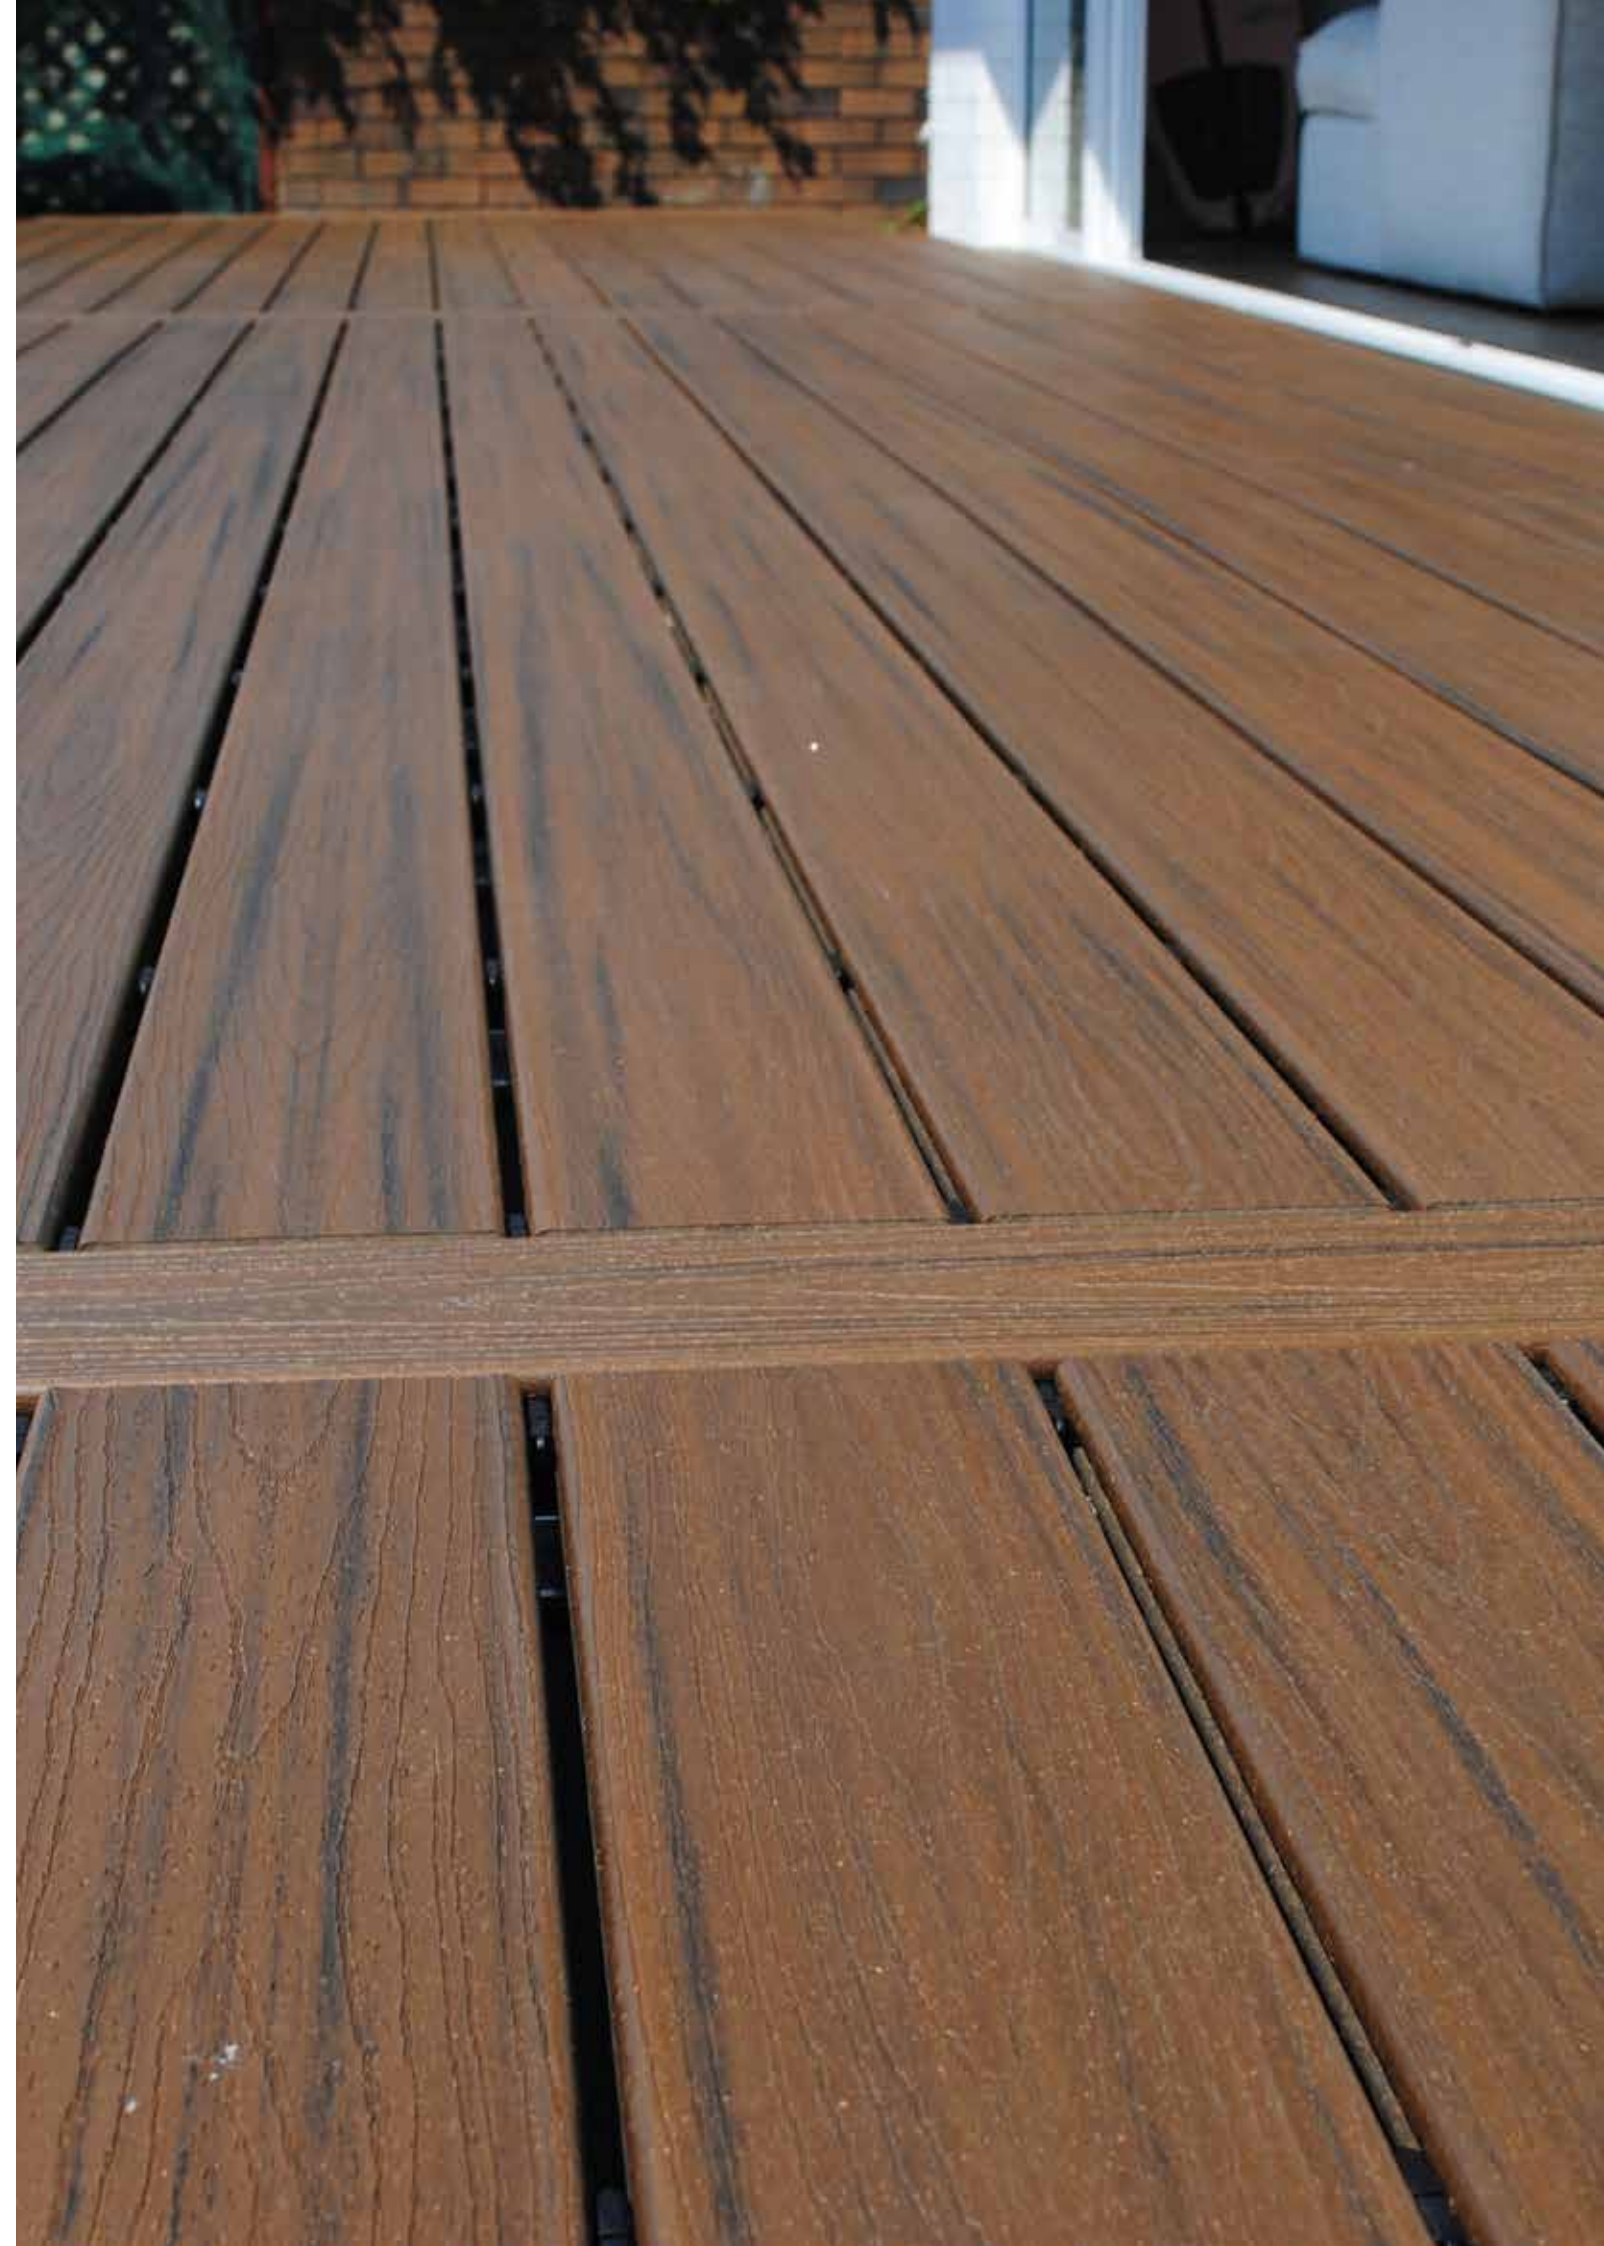

A covetable blend of caramel and honey hues, Havana Gold is a warm brown colour that mimics tropical teak.

Trex Shell Technology

Composite decking has come a long way over the past two decades. We should know, we invented the category. We've also evolved it by engineering the most significant breakthrough in composite technology—the Trex high-performance, weather-resistant shell.

Early-generation composites didn't come close to the fade & stain resistance the Trex boards guarantee. And not just for the first year, but for 50 glorious years.

Lava Rock

Featuring rich reddish-black undertones, Lava Rock looks and feels like magnificent redwood.

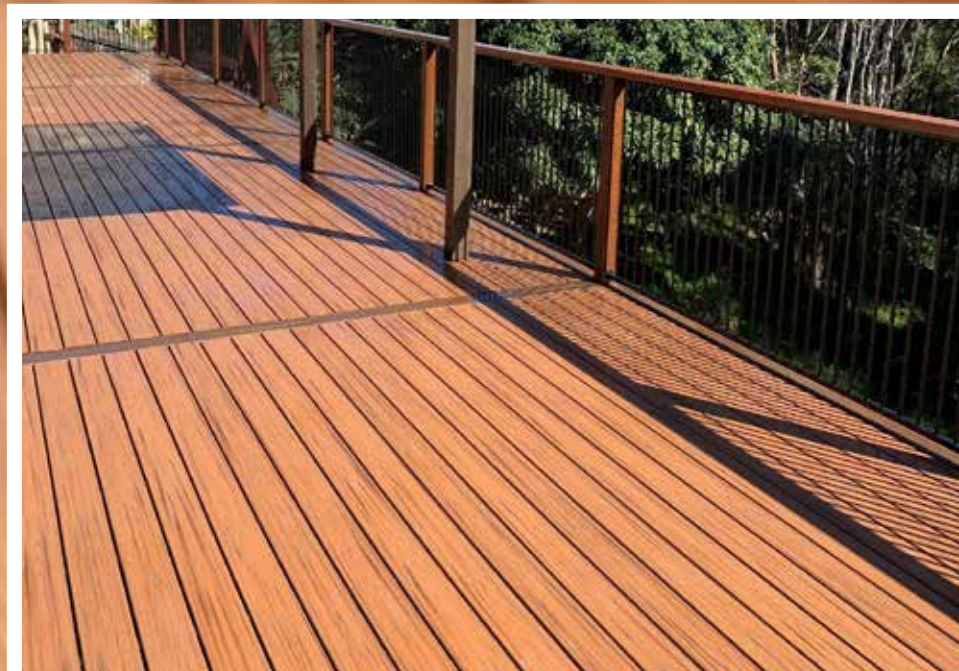

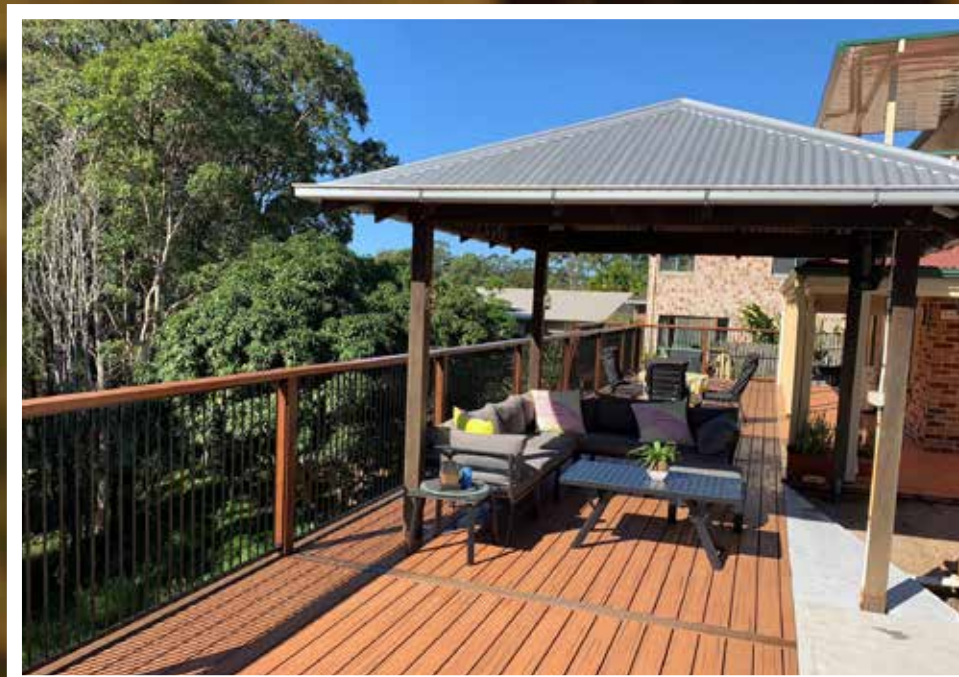

Resurface Your
Deck In Days.
Enjoy It For
Decades.

Isn't it time to scrap that warped, splintery, faded wood? Replace it with Trex high-performance composite decking and enjoy long-lasting, low-maintenance beauty for decades to come. After all, your time outdoors shouldn't be spent sanding, scraping and staining – it should be spent sitting on your deck enjoying the view.

Tiki Torch

Featuring hints of nutmeg and ginger, Tiki Torch is an easy going light brown.

For a more contemporary look consider Transcend® Earth Tones range. Compatible with the popular Tropical collection, this colour range offers the same high-performance and durability that's synonymous with the Transcend line.

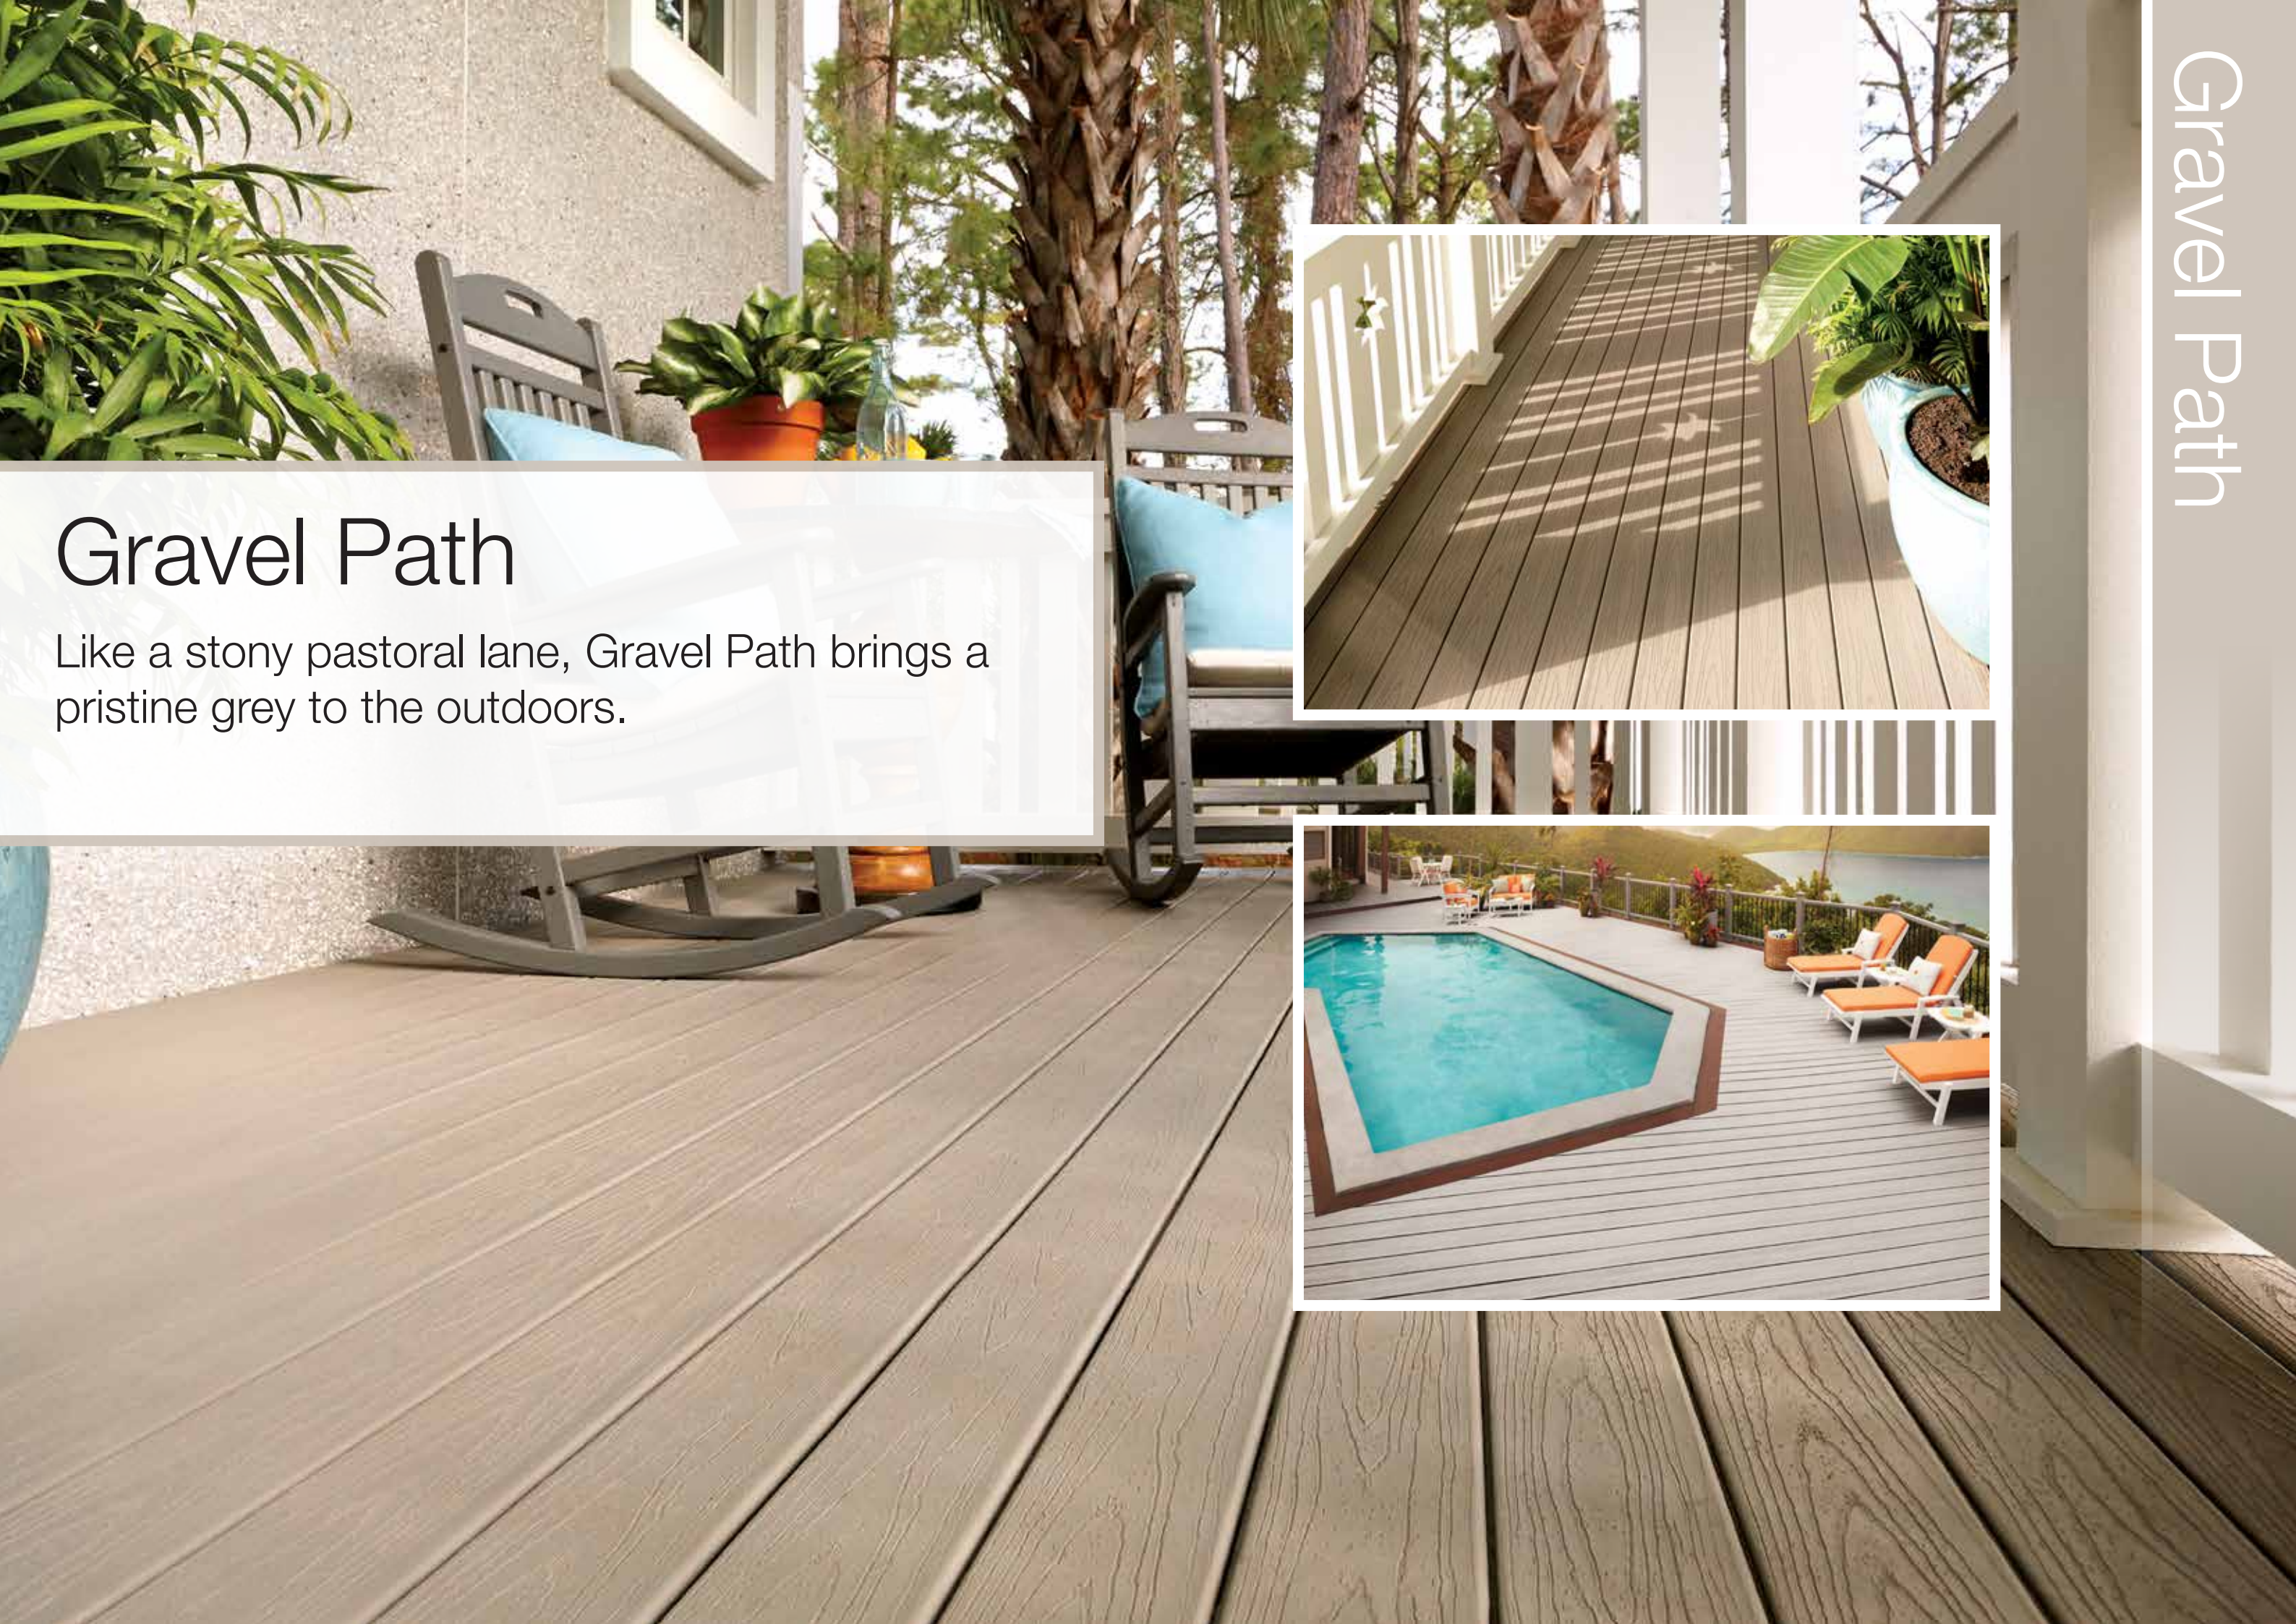

Unparalleled Beauty

Transcend decking's deep wood-grain pattern and luxury colours create a premium, ageless look that leave other composites in the dust.

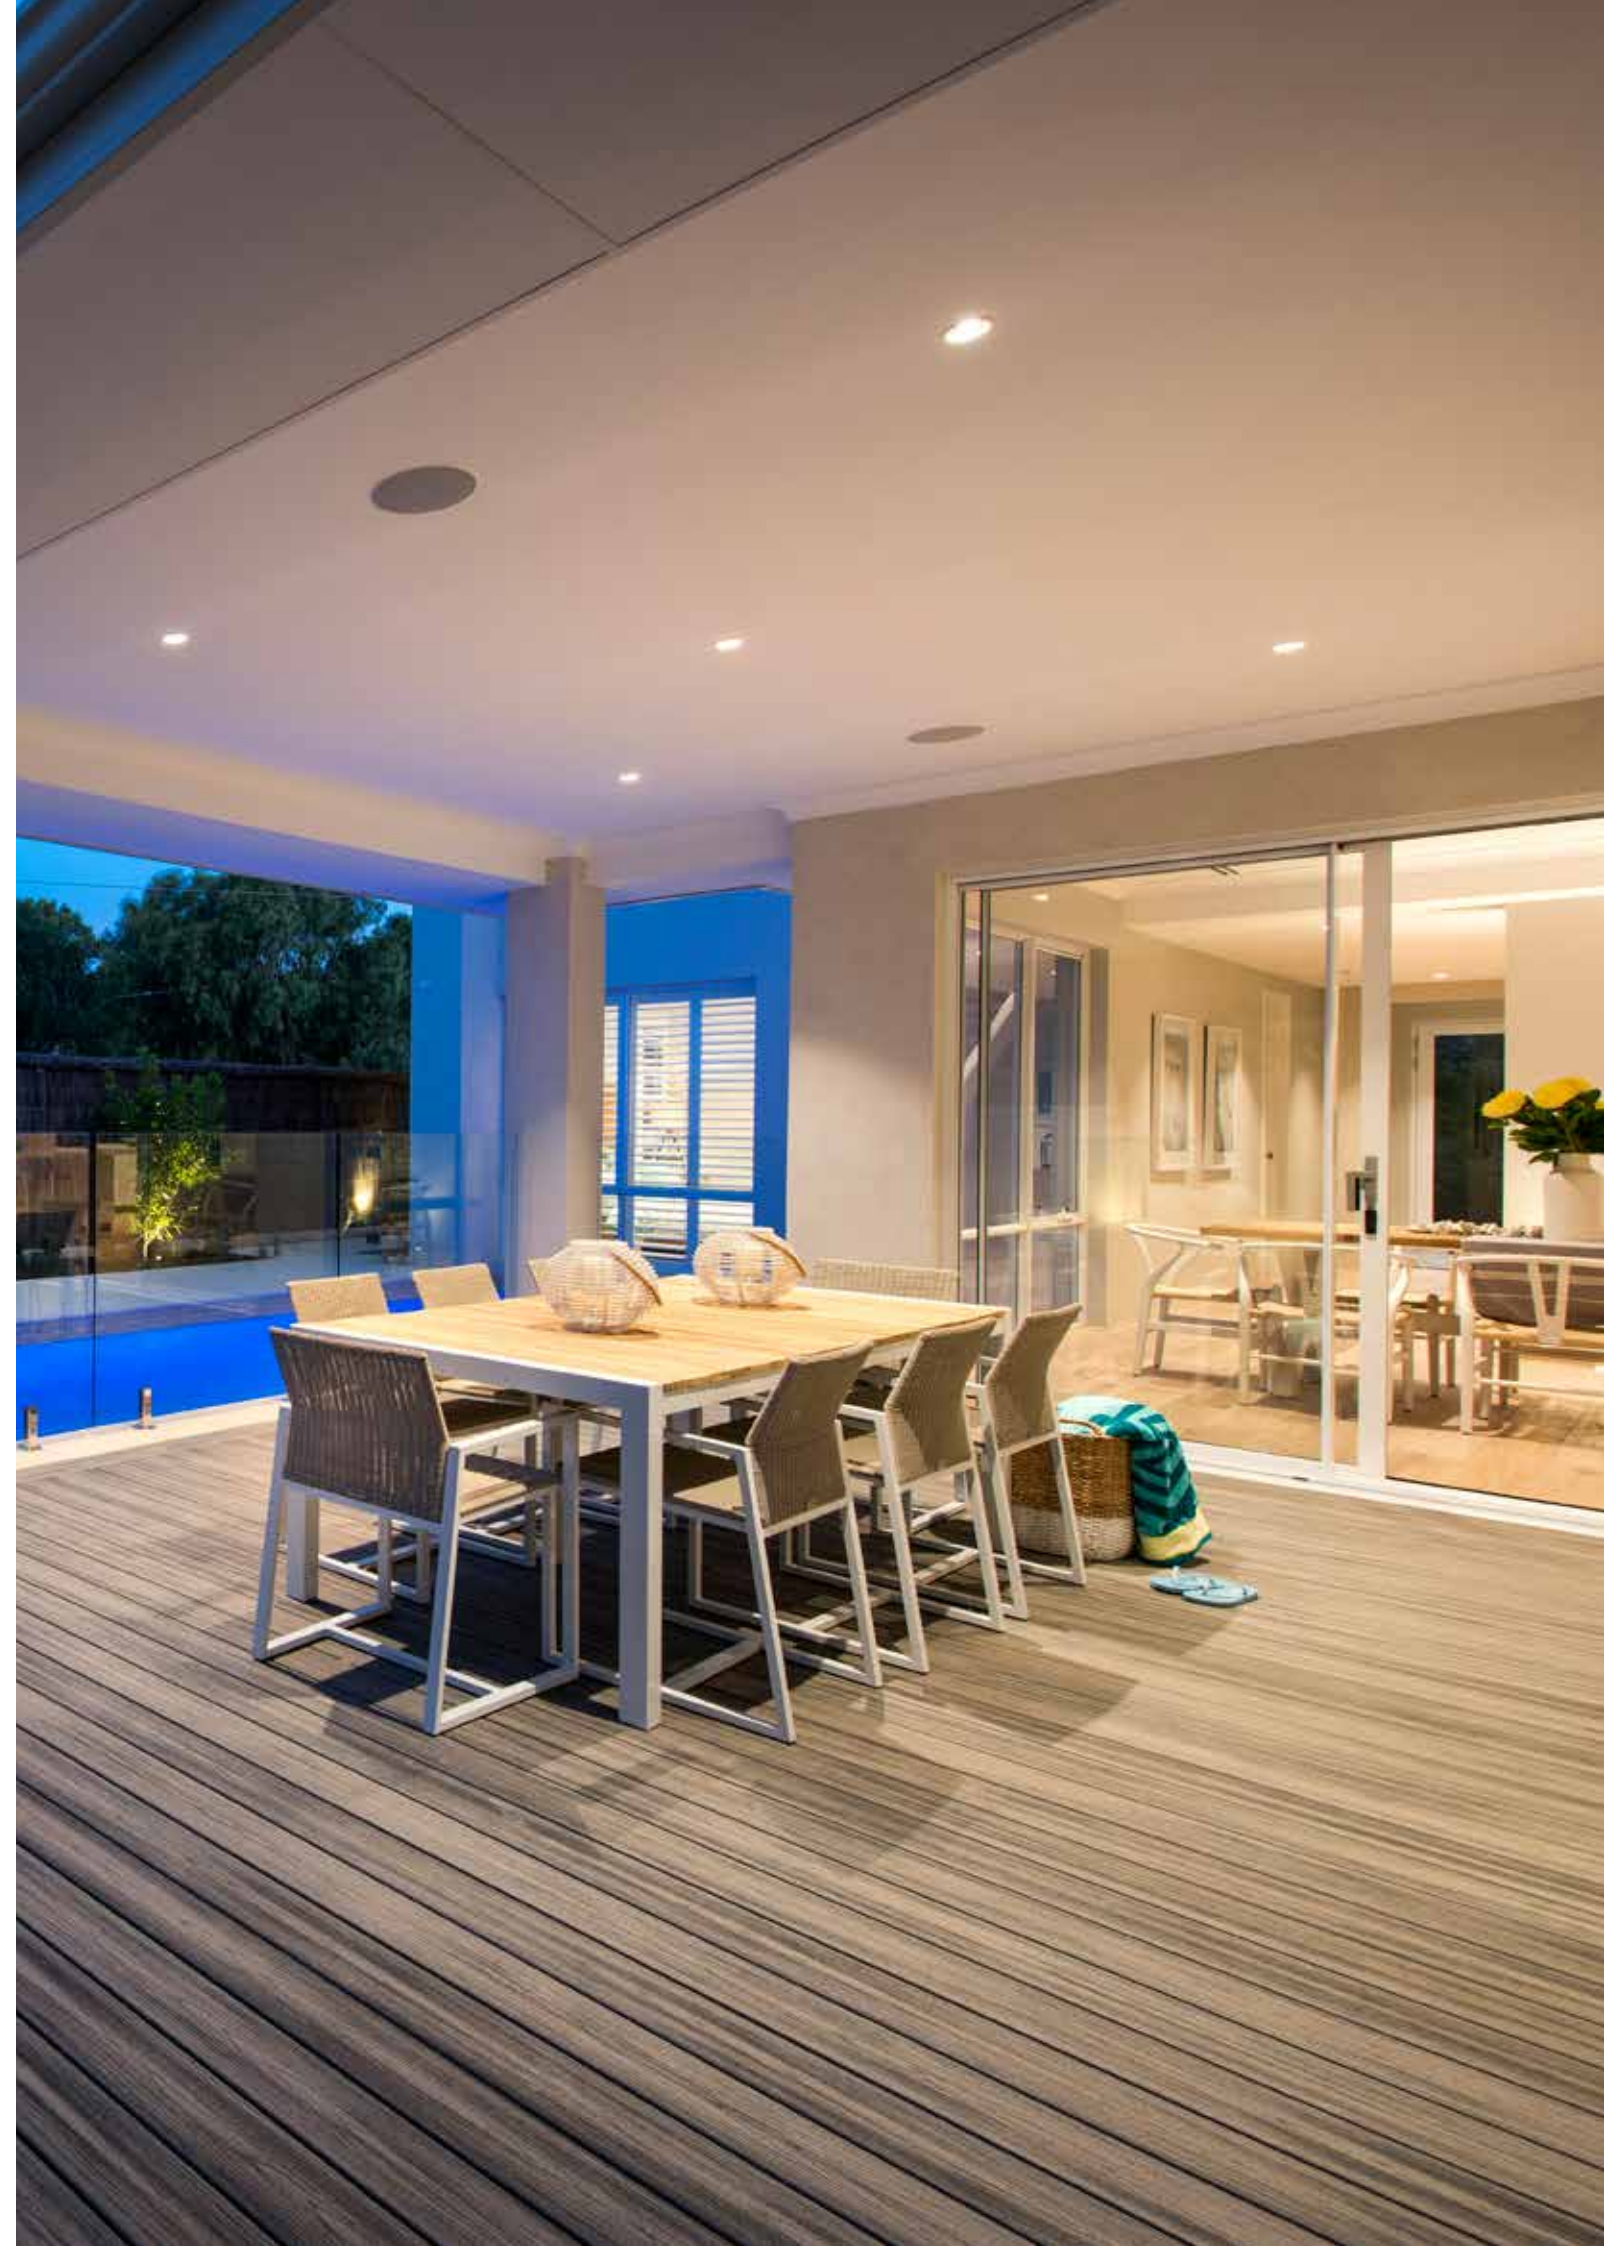

Gravel Path

Like a stony pastoral lane, Gravel Path brings a pristine grey to the outdoors.

Why Are Trex Outdoor Living Products Better Than Wood?

When it comes to Trex vs. wood, there's more to the story than the upfront price. While wood may be cheaper on day one, it could end up costing you far more by day 365 (and well beyond). Trex means quality, beauty and minimal maintenance, saving you time, money and everything that comes with a call to the handyman. Plus, the high-performance composite shell of Trex decking resists rotting, staining and cracking.

Rope Swing

A pale, sandy taupe, Rope Swing is a carefree colour for a place of outdoor leisure.

Being Green Is In Our DNA.

A standard 5.4 metre Trex board contains recycled material from approximately 2,530 plastic bags.

The average 25 square-metre composite Trex deck contains more than 70,000 recycled plastic bags, films, and wraps.

95% of raw materials used in the making of Trex are recycled, these materials are carefully processed to ensure the highest level of quality and performance. The result is a deck that performs better than wood, lowering your cost over time through lesser maintenance.

Handrails

Built with the same incredible durability as Trex Transcend decking—won't rot, warp, peel or splinter.

Trex Transcend® Railing Features

Timeless design you can trust – and tailor. Made from high-performance composite.

HIGH PERFORMANCE

- Stands firm with a strong, sturdy look and feel
- Built with the same incredible durability as Transcend decking—won't rot, warp, peel or splinter
- Lighting options available

TREX THROUGH & THROUGH

- Contains a minimum of 40% recycled material
- Pairs seamlessly with Transcend decking... and just as beautifully with any other Trex decking line
- Backed by the Trex 25-Year Limited Residential Warranty

All post sleeves & accessories sold separately

*additional Universal rail will be required for cocktail rail

Designed to Shine

Get the right mood right under the moonlight with our sophisticated deck lights. Easy to build into a new or existing deck, Trex® DeckLighting™ is even easier to set up with the Trex LightHub® connection system.

To take the look up another notch, try the optional timer and dimmer for total lighting control. Whether safely illuminating your stairways with LED step lights or proudly highlighting the perimeter of your domain with deck post lighting, our lights offers a long-lasting glow that never fails to match the beauty of a Trex deck.

Black and White colours available, all others are special order only.

Trex Hideaway® Hidden Fastening System

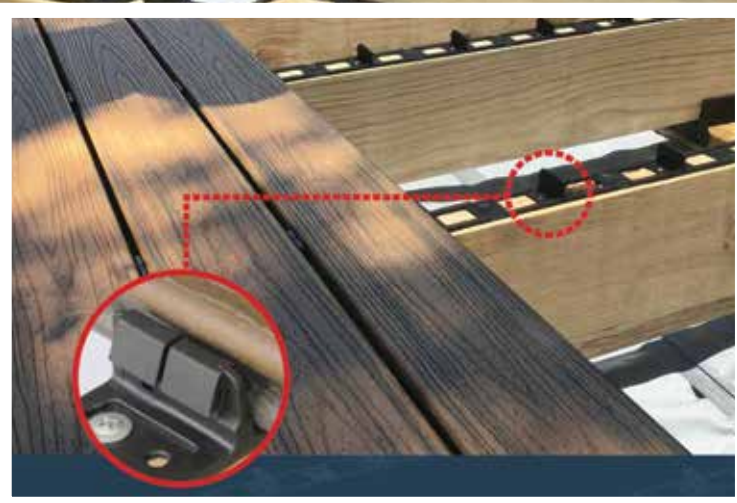

In pursuit of the perfect deck, all Trex decking lines come with a hidden installation option. When using grooved-edge boards, our hidden deck fastening system installs between the deck boards, fastening them to the joists with no visible deck screw heads on the walking surface.

This precision also creates perfectly consistent spacing between the boards for a flawless look across the entire deck. Fixings to suit both timber or metal frame we have you covered for any environment.

Klevaklip

KlevaKlip is Australia's only multi-board, fixed-pitch decking system – the clip controls the spacing of the boards, with each clip simply butting up to the previous one. This makes our system quick and easy to use when compared to other systems in the market.

Starborn™

Product Features

Materials: Available in epoxy coated carbon steel, Grades 305 and 316 Stainless Steel.

- Star Drive
Favoured by professionals; extra deep recess reduces cam-out.
- Undercut Head
Cleanly penetrates the hard-outer layer of capstock decking.
- Reverse Thread
Prevents mushrooming and other surface defects
- Tri-lobe Shank and Acute Thread Angle
For increased driving power and cleaner penetration through harder decking materials.
- Type 17 Auger Tip
For faster, easier entry; helps prevent splitting.
- Pro Plug® System for Wood
Integrated plug fastening system for hardwood decks, flooring and woodworking.
- Metal, Timber and Fascia Screws
Colour matched, coated heads or stainless steel to ensure a professional finish.

STARBORN®

Extend the Life of Your Deck

Protect your investment: Your beautiful deck didn't come cheap.

Protect it from rot and extend the life of your deck with Trex® Protect™ Joist and Bearer Tape.

Benefits:

- Protects the top of the joist, rim joist and ledger board from developing rot and wood decay
- Helps deck screws hold longer and stronger
- Acts as a barrier between wood and galvanized metal such as joist hangers
- Seals deck fasteners and prevents moisture penetration
- Eliminates splitting from freeze and thaw
- Provides a non-skid surface for safe installation

Trex Protect™

TrexPRO®

TREXPRO® DECK INSTALLER

TrexPro® deck installers are experienced with all Trex products and offer talented insight on the jobsite.

TrexPRO®
GOLD

TREXPRO® GOLD DECK INSTALLER

TrexPro® Gold Deck Installers have achieved advanced product and installation training and make up a select group of talented and dedicated professionals experienced with using Trex products to craft the deck of your dreams. Look for the TrexPro® Gold icon when you're searching for an official TrexPro® Installer.

TrexPRO®
PLATINUM

TREXPRO® PLATINUM DECK INSTALLER

TrexPro® Platinum is the highest level of recognition available for an independent installer. TrexPro® Platinum deck installers are the leading TrexPros in their markets, with demonstrated ability and expertise to design and build outdoor living projects with Trex, ranging from the simple to the most complex. Look for the TrexPro® Platinum icon when you're searching for an official TrexPro® deck installer.
