Why Buy Queensland Timber ?

Wilson Timbers has elected to participate in the "Buy Queensland Timber" campaign. Living in a State battered by floods, heat and wind you want assurance the building materials you choose will stand to the test of time. Queensland timber is fit for purpose – trees grown in local conditions provide timber that will provide years of faithful service.

Members of the Network have agreed to stock and sell Queensland produced timber at a fair price and have contributed to the "Buy Queensland Timber" campaign featuring Industry Ambassador Ben Dark.

Why buy Qld Timber ?

Confidence in quality—

Queensland timber is true to label, fit for purpose and will

deliver the best performance for our sub tropical and tropical environment.

Environmentally Friendly—

Qld's forestry plantations are our cities lungs and natural greenhouse filters. Once harvested, carbon remains stored in the timber used in buildings and wood products. Then the forests are replanted and regrown over and over again.

Better for Qld— Using Qld timber helps maintain

18000 jobs and \$3.8 billion of economic value to our great state.

Cost Effective—

Timber species and grades can be selected to suit your design and budget requirements.

Fast to Build—

Timber buildings can be erected and completed in the third of the time it takes to build the same structure in brick and mortar. They

are also easier, cleaner and faster to alter and extend.

Better with age—

One of the benefits of a timber floor is that it actually looks better as it ages and develops character, plus it can be refinished and brought back to "as new" several times throughout its life. The iconic "Queenslander" style timber house is testament to the durability of Queensland timber.

On a sad note—the passing of our founder Brigadier Colin Wilson 24/01/1928 — 28/07/2014

It is with deepest regret that we announce that Brig. Colin Wilson, aged 86 years, passed away peacefully at his home at 1.17am on Monday 28th July with his family by his side. Colin also had a distinguished military career in the CMF with deployment

overseas. Colin was well-respected in the timber industry and was known to be tough but fair in good military fashion.

He will be sadly missed by customers and staff who knew him and his family who loved him.

GOLLY, HE'S GOT ABOUT THE SAME AMOUNT OF HAIR ON HIS HEAD AS I HAVE ON MY BACK

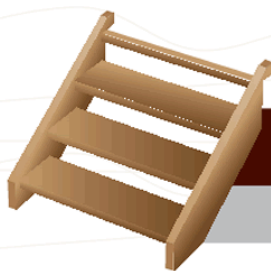

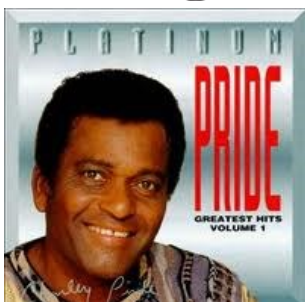

On a happier note

Did you know that Wilson Timbers has a new addition to add to the fold?

Our congratulations goes out to Stevo and his partner Kayla on the birth of their baby boy, Bentley James Pryde

KILKENNY® KWIK STEP

Kilkenny Kwik-Step™ is a new innovation in pre-assembled steps, aimed at the builder or DIY handyman, giving a professional finish whilst saving you both time and money. Purchase either ready made from our Stock Range or place a Special Order and have one custom made.

Our Stock Range

Kwik-Step Stair Treads are 900mm long plus the two (2) stringers.

Our rise height is 160mm to make easier to climb and suitable for all age groups!

Our stairs are fully trenched out from the back & your treads are pre-drilled for easy assembly — all you need is a power drill & a few screws and you are done!

Call us for a quotation or look them up on our website at

www.wilsontimbers.com

Funnies

Paddy and Murphy are walking past a timberyard when a man comes out and pins up a poster saying "TREE FELLERS WANTED". Whereupon Paddy turns to Murphy and says "Isn't it the shame that Mick didn't come with us today?".
