EDITOR - STUART MADILL

LOOK WHAT THE CAT DRAGGED IN

Some of those in the office, with clairvoyant abilities, predicted that Tammy couldn't keep away from the hustle and bustle of our busy office. Others assumed that she had run out of polo shirts and needed to replenish her supply by hounding and cajoling our tradies with the promise to wear their work shirts in the office so she could promote their respective businesses.

Whatever the reason we are extremely happy that Tammy has rejoined the team to offer her special brand of good humour and customer service.

Since Tammy has only been gone for six months she has agreed to return all the going away presents she received when she left. As for the cake, well she can keep that.

Special points of interest:

- RETURN OF THE TAMMY
- THE LOWDOWN ON SOLARIS INSULATED ROOFING PANELS
- FUNNIES AND JOKES

DID YOU KNOW?

Solaris insulated roofing panels have three different profiled ceilings. Plain, VJ & Satinline. VJ and Satinline are supplied at no extra cost. In particular the VJ profile is a great match when installed in a colonial old Queenslander type construction. Retracom has extended their topskin colour

range. Available colours are SURFMIST, PAPERBARK, CLASSIC CREAM, DUNE, SHALE GREY, PALE EUCALYPT, DEEP OCEAN, IRONSTONE, WOODLAND GREY, WINDSPRAY AND JASPER. Retracom also supply low voltage, LED downlights. Due to the low heat properties they are ideal

for use with insulated roofing panels. Stay tuned for the corrugated topskin panel due for release at the end of the year.

Deck Restoration

Wilson Timbers has teamed up with Cabots and Chris from **Australian Boardwalk & Deck Restorations** to offer our customers a professional sanding and oiling service.

Call in at Moorooka to view their work or book Chris for a quote on

WHY WOMEN LIVE LONGER THAN MEN

1. Because of stuff like this:

A CONSEQUENCE OF DEFORESTATION

JOKES AND MORE JOKES

A blonde carpenter was fixing up some wooden window frames on a 50-story building. He was using an electric saw and accidentally cut one of his ears off. A guy was walking along the street below him so he called out, "Hey, you on the street, can you see my ear down there?" The guy on the street picks up an ear saying, "Is this it?" "No," was the reply from the blonde carpenter, "mine had a pencil behind it."

of the other workers.

Based with past brushes with the law, many of these workers were considered prime suspects. They were a motley crew:

The electrician was suspected of wiretapping once but was never charged.

The carpenter thought he was a stud. He tried to frame another man one time.

The glazier went to great pines to conceal his past. He still claims that he didn't do anything; that he was framed.

The painter had a brush with the law several years ago.

The heating, ventilation and air conditioning contractor was known to pack heat. He was arrested once but duct the charges.

The mason was suspect because he gets stoned regularly.

The cabinet maker is an accomplished counter fitter.

The autopsy led the police to arrest the carpenter, who subsequently confessed. The evidence against him was irrefutable, because it was found that the workman, when he died, was hammered.

BOB TEH BUILDER CAT

Can he fix it? Yes he can!
