

Measure Twice Cut Once

OCTOBER 2017

The builder's guide to all things timber and hardware.

Reporting From The Wilson Timbers' Golf Day.

On Friday September 1st we held our annual client appreciation golf day. Everyone who came had a great day. We sent out our roving reporters to catch the action. Here's what they brought back.

Jay from QDR Group and Sam from VDB Projects

Marty from MartCon Projects (He just had shoulder surgery but still wouldn't miss the day)

Selfie Time - Hayden from HJ Building Services and our very own Cherie

Chad, Ryan, Harrison and Michael from Ransom Constructions

And The Winners are:

Here are the winners of all the different competitions on the day. Congratulations to everyone.

1st Place – Craig Anderson Builder and Swan and Sons Homes

David, Craig, Johnny and Clive

Tasman KB

Cooler Products At Our Golf Day...

Based on some rather informal surveying of the Golf Day attendees here were the products that got tongues wagging.

Hume Doors' Evolution Touch Cavity Release System:

The Evolution Touch uses magnets to lock the door in the cavity and can be released just by pressing the door. You kind of need to see it in action to see how amazing it is. Mark from Hume did a great job on their trade stand on the day. You can see a video at <http://www.humedoors.com.au/evolution-cavity-unit.php> or scanning this QR code

certainly positive. Anyone who wanted to could have a go and also find out more on the other great products in The Sheffield Group's range of cutting tools. For more information you can go to www.sterlingtools.com.au

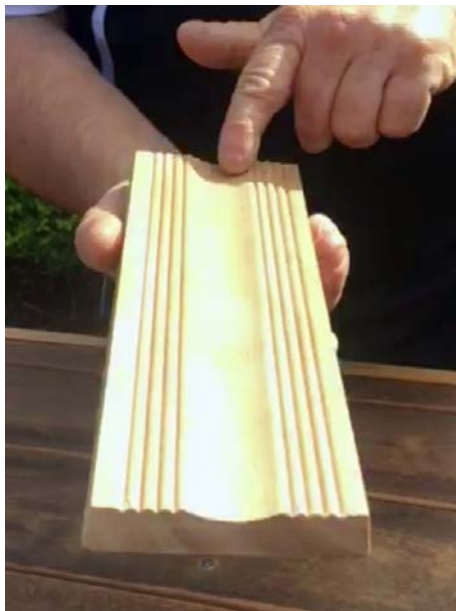

Of course Wilson Timbers can supply these products for you. If you want to see demonstrations, need more information for yourself call 3277 1988 now and we will arrange a rep to come and visit you on site.

Hume Evolution Touch Slider in action.

LifePlus Decking: LifePlus decking has a patented profile that extends the life of the deck and reduces its maintenance by 50%. The bottom is grooved and scalloped for plenty of ventilation preventing rot. The sides are tapered so that it is easier for debris to pass between the decking rather than getting stuck in the gaps – which helps to prevent rot as well. The decking has a sanded sawn top which helps reduce slip risks and also helps the deck to absorb decking oil – which increases the time between coats of decking oil. You can get more information at www.lifeplus.com.au

LifePlus decking's unique design.

Sheffield's tynite drill bit vs railway iron.

The Sheffield Group: To demonstrate their Tynite drill bits The Sheffield group stand had a 'drill a hole in a piece of railway track' game. If you missed it, it was really impressive to see in action and all the feedback was
